HDMI splitter – for perfect quality on multiple screens

✓ 8K
✓ intelligent EDID management

Ideal for training & conference rooms, advertising spaces, sales areas and home entertainment systems

Imagine standing in front of a large crowd giving a presentation. With the HDMI splitter, you can not only display your presentation on the main screen but distribute it to other screens at the same time.

This means everyone in the room has a perfect view and does not miss any important details of your presentation.
